Application Developer

Conversion Specialists

03 FOUNDER STORY

Rocky O'Neill

SENIOR MEDIA BUYER
CHIEF COMMERCIAL OFFICER

"I fell in love with digital marketing that day."

At 14, my dad picked up a wrecked crane truck for \$1,000, everything was broken. After months fixing it up together, we decided to start a scrap metal "business" no WOF, no rego, and **no idea how to actually find people** with scrap metal.

Using my pocket money, I gave Facebook ads a crack. After some trial and error, within weeks we were pulling in trailer loads of scrap metal and the old man was able to buy his dream skyline. I fell in love with digital marketing that day, and now I want to **pass these skills on to other businesses and help them grow.**

Outside work you'll find me kickboxing, which taught me most of what I know about discipline and showing up when it counts.

03 FOUNDER STORY

Maximus Smith

CHIEF EXECUTIVE OFFICER
CREATIVE DIRECTOR

“Seeing a client’s phone start ringing off the back of a campaign never gets old.”

I’ve always been a marketer at heart. As a teenager I spent countless hours designing ads for family members’ businesses, from roofing to plumbing.

Growing up around tradies, I saw how hard they work and how much a steady flow of good jobs means to them, and somewhere along the way I fell in love with helping them win more work.

What started as a bit of extra pocket money running Facebook ads has turned into a career I’m genuinely proud of, **and seeing a client’s phone start ringing off the back of a campaign never gets old.**

Outside work, you’ll usually catch me on the football pitch.

04 HOW WE REPORT

Reporting on what your marketing is actually worth.

Rocky, our Chief Commercial Officer, understands the financials. So we don't just report on vanity metrics like where you are ranking on Google or your cost per lead. We report on what your marketing is actually worth to your business.

01

Revenue first

Before everything else, we report on the revenue your marketing has brought in.

02

Actual quotes

We track the actual quotes coming in, not vanity metrics like Google rankings or cost per lead.

03

Tracked in a CRM

We use a CRM to track all of your revenue, so nothing is left to guesswork.

04

Fortnightly catch-ups

Every fortnight we catch up to make sure we are booking in the right kind and quality of quotes.

05 SPEED TO LEAD

Custom Mr Priceless CRM.

A lead is only worth something if someone follows it up. Our custom-built CRM tracks every lead that comes in through Meta and makes sure each one gets a call, fast.

Response time on every lead

01

Meta leads tracked

Every lead that comes in through Meta lands in our CRM, so we know which ads are bringing in work.

02

3-minute response

We respond to every lead within 3 minutes, while the job is still front of mind.

03

We call and book

We don't just pass leads on. We call them and book them in as quotes, all through this system.

04

Follow-up matters

Not everyone picks up first time. The system keeps us following up, so good leads don't go cold.

05 SPEED TO LEAD

Why 3 minutes matters.

Speed is the biggest lever on whether a lead turns into a booked quote. The research is blunt about it.

7x

more likely to have a real conversation with the decision maker when a business tries to reach a lead within the hour, compared with waiting just one hour longer.¹

60x

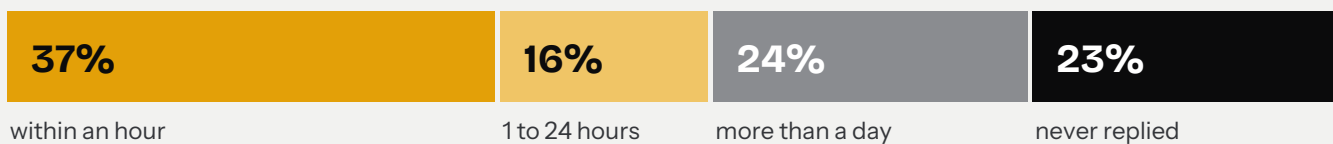

more likely to qualify the lead than businesses that waited a day or more.¹

21x

more likely to get a lead into the sales process when the call comes within 5 minutes instead of 30.²

Most businesses are slow. That gap is your advantage.

How fast 2,241 companies replied to a new web lead¹

Most businesses take hours. We respond within 3 minutes.

¹Oldroyd, McElheran and Elkington, "The Short Life of Online Sales Leads", Harvard Business Review, March 2011. Based on 1.25 million sales leads and an audit of 2,241 US companies. ²Lead response study led by Dr James Oldroyd, as reported by HVACR Business, April 2013.

We look forward to working with you!

Say hello to Success.
